Listing of Claims:

- (Previously Presented) A method of treatment for mastalgia, comprising administering 4-hydroxy tamoxifen percutaneously to the breasts of a patient having mastalgia, at a dose of at least 1.5 mg/day.
- (Original) A method according to claim 1, wherein said 4-hydroxy tamoxifen is in a vehicle containing a penetration enhancer.
- (Previously Presented) A method according to claim 1, wherein said
 4-hydroxy tamoxifen is a blend of trans and cis isomers.
- (Original) A method according to claim 1, wherein said 4-hydroxy tamoxifen is a trans isomer.

Claim 5 (Canceled)

- (Original) A method according to claim 1, wherein greater than about 0.75 mg/breast of said 4-hydroxy tamoxifen is administered to said patient per day.
- (Original) A method according to claim 1, wherein greater than about 1 mg/breast of said 4-hydroxy tamoxifen is administered to said patient per day.
- (Original) A method according to claim 1, wherein said 4-hydroxy tamoxifen is formulated in a hydroalcoholic gel.
- (Original) A method according to claim 8, wherein said hydroalcoholic gel comprises ethyl alcohol, isopropyl myristate, and hydroxypropylcellulose.
- (Original) A method according to claim 1, wherein said 4-hydroxy tamoxifen is formulated in an alcoholic solution.
 - 11. (Original) A method according to claim 1, wherein said mastalgia is cyclical.

Atty. Dkt. No. 088734-1111 (Formerly 029488-0111)

- 12. (Previously Presented) A method according to claim 1, wherein about 0.75 mg/breast of said 4-hydroxy tamoxifen is administered to said patient per day.
- (Previously Presented) A method according to claim 1, wherein about 1 mg/breast of said 4-hydroxy tamoxifen is administered to said patient per day.
- (Previously Presented) A method according to claim 1, wherein about 2 mg of said 4-hydroxy tamoxifen is administered to said patient per day.
